SURI AUTO PVT. LTD.

Director's Message

Suri Auto Pvt Ltd is the name made to be the best, by hard work, dedication and team spirit; the highlights that enhance our ongoing pursuit to perfection. With positive approach towards success and also to enjoy the day to day achievements to get to the top most level, Suri Auto will always be sure to get the best quality products throughout all its journey with our production facility located at Gurgaon. We have the most modern & fully automated production line handled by an expert team of engineers, supervisor and workers.

By using external and peer benchmarks, we identified gaps and developed a more integrated and holistic set of goals and targets to drive sustainability further into our core business processes. The ongoing plant integration soundly witnesses this statement.

Atul Suri

OUR COMPANY

Suri Auto Pvt. Ltd. was founded in the year 1974 by Late Sh. R. C. Suri as a proprietor company under the name Suri & Co. later in the year 1985 the constitution of the company was changed to Private Limited Company and is currently running under the dynamic guidance of Mr. Atul Suri. With over 30 years experience, Suri Auto Pvt. Ltd. prided itself on reputed manufacturers of Precision turned components, CNC machined parts and assemblies. We have the latest machine technology to ensure that our company stays at the cutting edge for the industries such as automobile and engineering in Northern India.

Our Company has been ISO 9001:2008 certified and follow best practices such as Kaizen, TPM, 5S and other management techniques for fast efficient service and prompt on time delivery.

Our machines are equipped with special attachments for higher accuracy, excellent finish and mass volumes.

We have built our reputation on the sound principles of quality products and customer service. We pride ourselves on the knowledge of our trained staff, and the level of service we offer from the first contact through to supply and after sales service.

Future plans include a focus on export activities, setting up a 100 % Export Oriented Unit and moving towards ISO TS 16949 certification and Environment Management System ISO 14001.

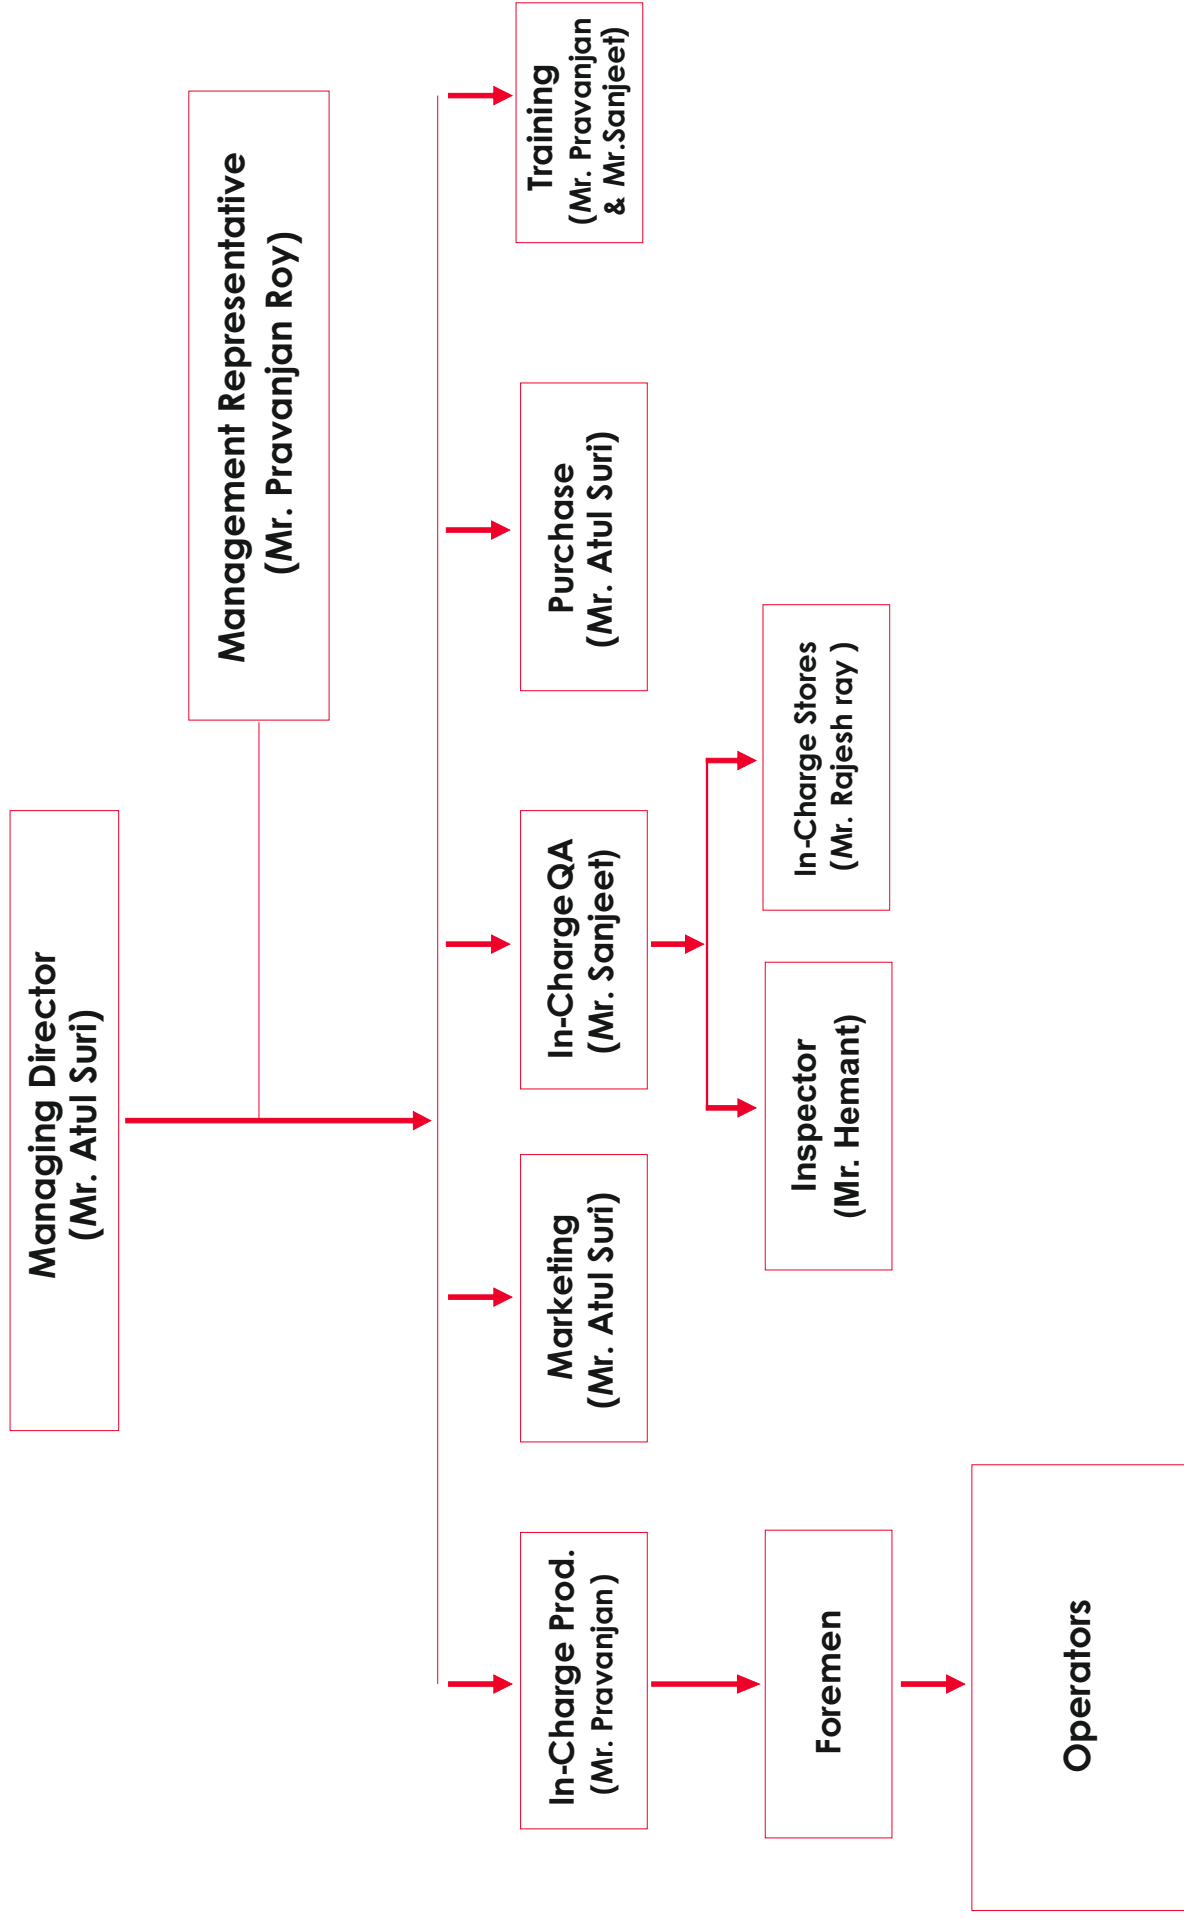

OUR MISSION

To be the best Auto parts provider and to exceed our customers' expectations for quality and high performance, to provide our employees with a great place to work and to serve our community as a committed corporate citizen.

OUR VISION

Our vision is to enhance our leadership stature, differentiate us from our competitors and bolster the cause of keeping the automobile parts economically viable and performance driven.

ORGANIZATION STRUCTURE

QUALITY POLICY

We at Suri Auto Pvt. Ltd. are committed to provide Total Customer Satisfaction. We would achieve this by Strict adherence to Quality, Timely Delivery, and Competitive Pricing through Continual Improvement to our Quality Management System and also adhering to applicable statutory and regulatory requirements.

QUALITY OBJECTIVES

- Reduction in Customer complaints.
- Improve Customer Satisfaction.
- Improve Supplier Rating.
- On time Delivery.

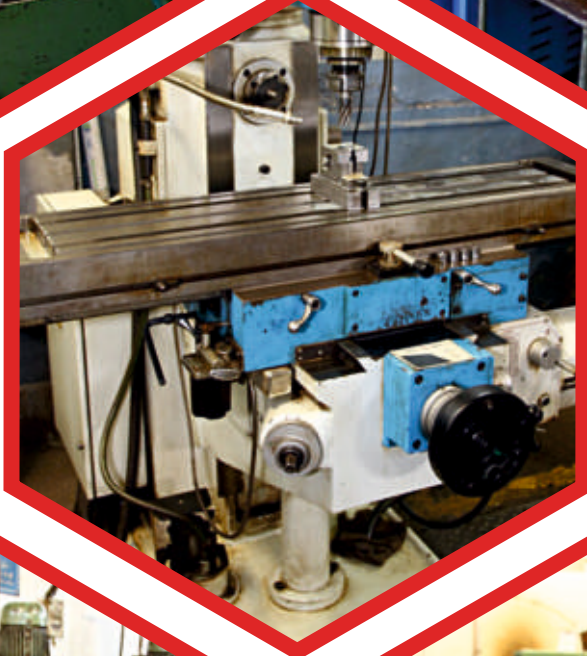

MANUFACTURING INFRASTRUCTURE

Our state of the art manufacturing facility at Gurgaon is a center for excellence for the manufacturing precision turned components and automotive sub-assemblies / assemblies for industries such as automobile, engineering and instrumentation. From CNC turning machine to cylindrical grinding machine, we are well equipped to manufacture top class quality products; our manufacturing facility is well equipped with all the essential safety parameters and technical certifications.

List of Machinery

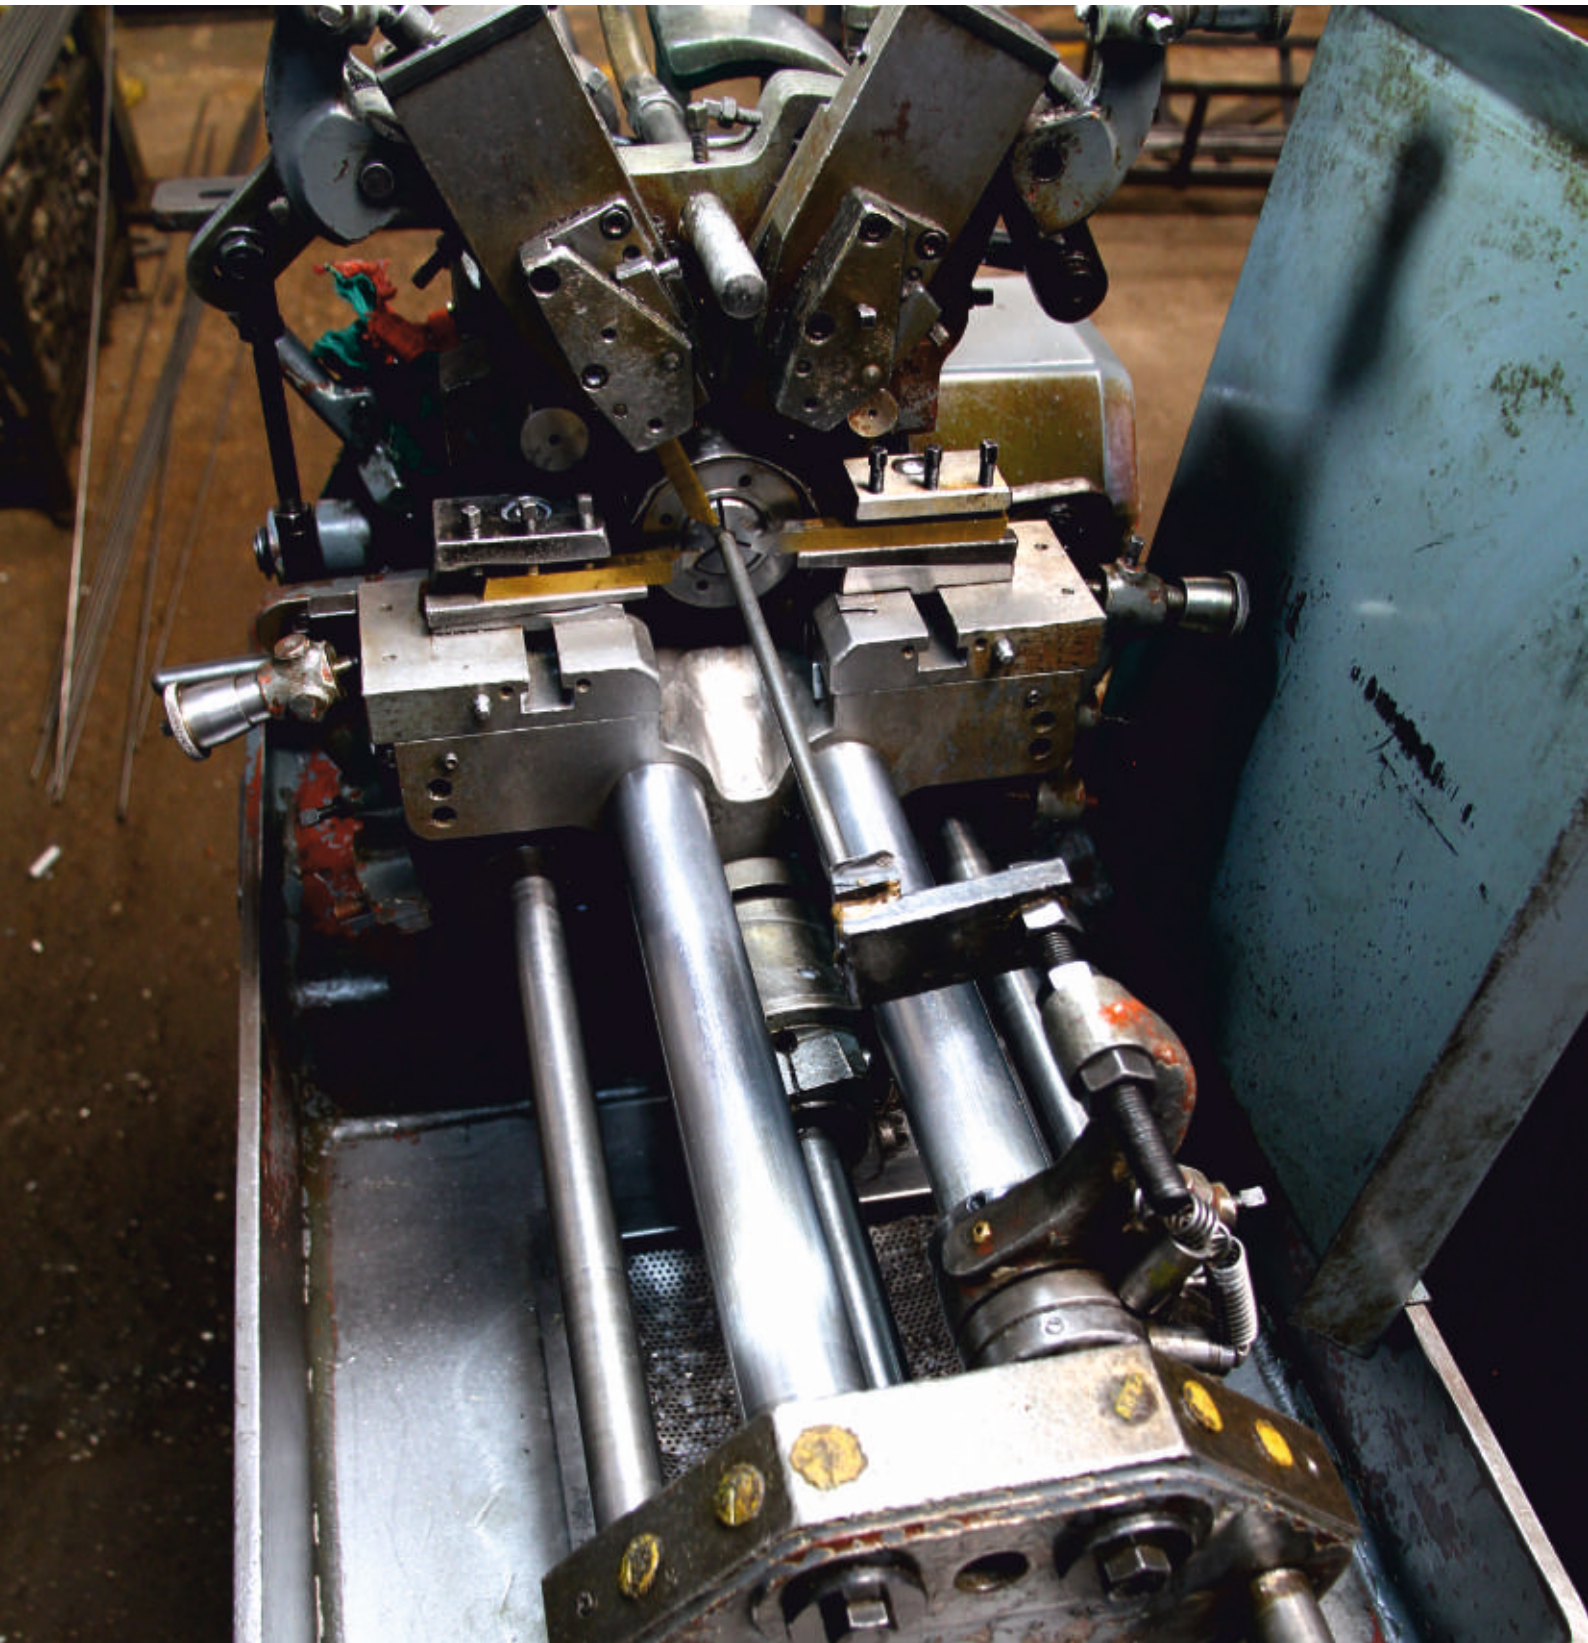

- CNC Turning
- Automat A-25
- Automat A-42
- Automat A-60
- Automat A-32
- Center Lathes 6"
- Band Saw Fully Automatic
- Center Less Grinding 3"
- Cylindrical Grinding M/c 250x800
- Universal Milling M/c 800x400x200
 - Milling & Drilling
 - Tapping
 - Bench Drilling
 - Hydraulic Drill
 - Mig Welding Set
 - Surface Grinder

PRECISION AUTO TURNED COMPONENTS

We have large number of single spindle Automats of capacity ranging from 3 mm dia to 60 mm dia. All machines are equipped with special attachments and the raw material used as M S PIPE, FORGINGS, EN3A, EN-1A, EN-8, EN-9, EN-32B, EN-353, SAE-8620, ALUMINIUM - 6063.

CNC MACHINE AUTOPARTS

CNC Turning Centers are installed in large numbers with all specialized tools and attachments. We manufacture highly precision parts like shafts, special nuts, etc mostly in alloy steels of difficult specification. Qualified CNC programmers and operators handle the operations.

List of Quality Control Instruments

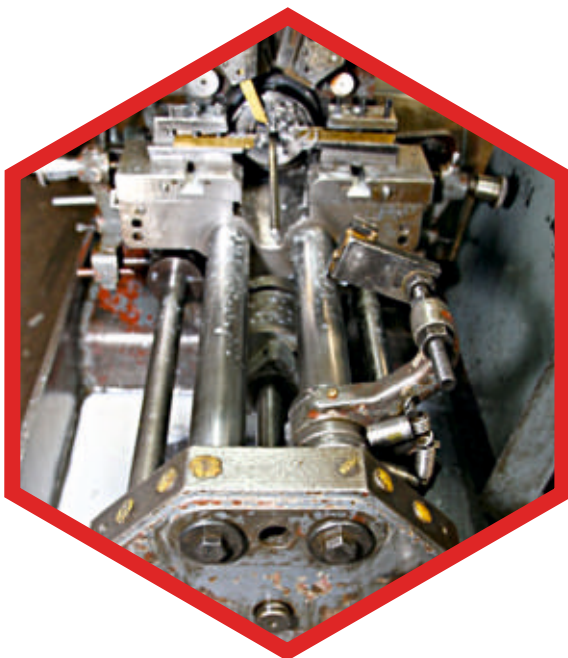

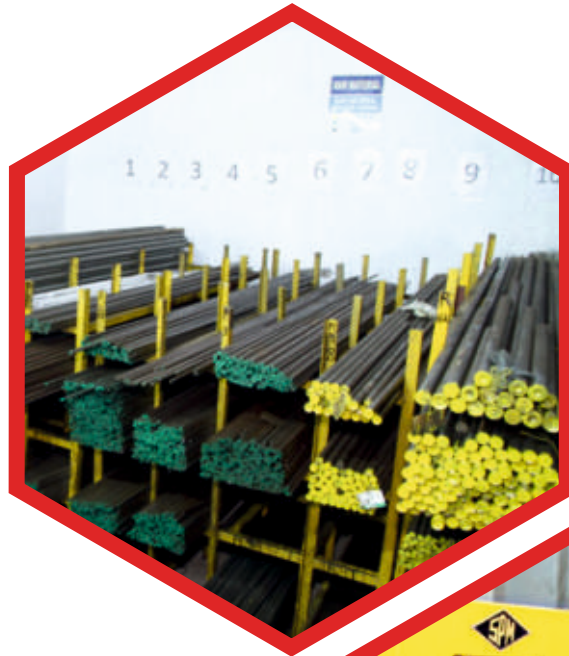

- Hardness Tester
- Slip Gauge Box
- Centre Bench
- Comparator
- Surface Plate
- Surface Roughness Tester
- Plating Thickness Tester
- Dial Vernier
- Dial Indicator
- Thread Ring Gauge
- Digital & Plain Vernier
- Height Gauge
- Three Point Micrometer
- Dial Bore Gauge
- PCD Micrometer
- Snap Gauge
- Digital & Two Point Micrometer

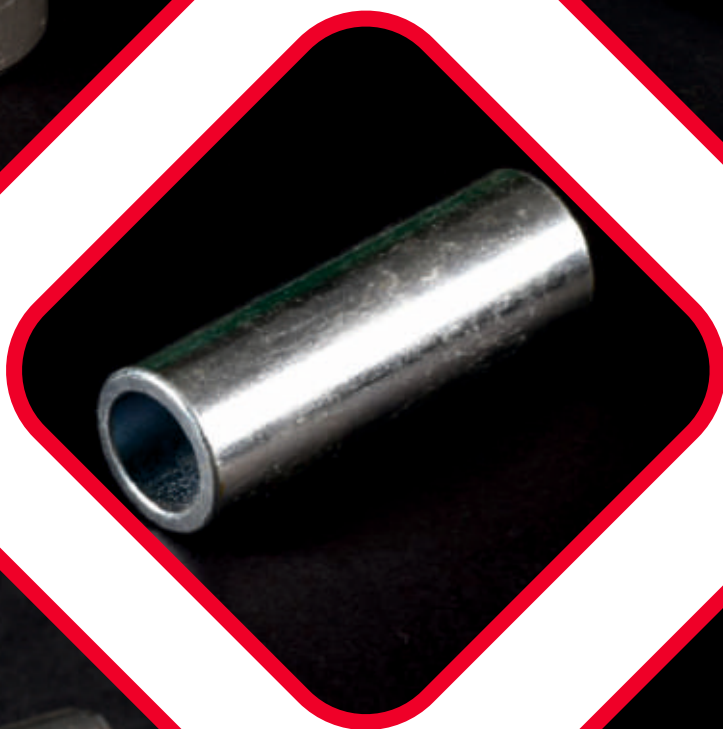

List of Major Used Raw Material

- M S Pipe
- Forgings
- EN3A
- EN-1A
- EN-8
- EN-9
- EN-32B
- EN-353
- SAE-8620
- ALUMINIUM - 6063
